

## **Report on the activities of Division 5 in 2007**

- A. The Division 5, after an electronic vote of more than 50% of its members has proposed two new members for the Advisory Board of Electrochimica Acta, i.e. Professor M. Watanabe and Professor Christos Comninellis.
- B. The Division has organized (Professor Achille de Batisti) the Symposium 5 “Electrocatalysis, Catalysis and Bioelectrocatalysis: The common aspects, the practical applications” at the 2007 Banff ISE Meeting, where it also held its yearly Luncheon Meeting.
- C. The Division has undertaken the organization of a symposium entitled “Industrial Electrolysis: State of the Art and Innovation in Electrode Materials and Processes for the 2008 Seville ISE Meeting.
- D. During 2007 Division 5 has sponsored or agreed to sponsor the following conferences:
1. **Electrofinish 2007**, an important meeting on electrodeposition organized in Athens on October 2007 by Professors Cavalotti (Milan) and Spyrellis (Athens).
  2. **International Congress on Sonoelectrochemistry**, the effect of ultrasonic irradiation on electrochemistry, organized by Professor Garcia (Alicante) in September 2007 in Madrid.
  3. **The 8<sup>th</sup> European Symposium on Electrochemical Engineering** organized by Professor K. Bouzet in Prague on August 2008.
  4. **The FDFC 2008 (Fundamentals and Developments of Fuel Cells)** organized by Professor Francois Lapicque in Nancy on 10-12 December 2008.
