

Shaojun GUO is currently a Professor of Department of Materials Science and Engineering with a joint appointment at Department of Energy and Resources Engineering, at College of Engineering, Peking University. He received his BSc in chemistry from Jilin University (2005), Ph. D in analytical chemistry from Chinese Academy of Sciences (2011), and moved to Brown University as a postdoctoral research associate from Jan. 2011 to Jun. 2013 and Los Alamos National Laboratory as a very prestigious J. Robert Oppenheimer Distinguished Fellow from Jun. 2013 to Sep. 2015. He has also received numerous prestigious prizes including 2014&2015 World Highly Cited Researchers, the Recruitment Program of Global Youth Experts, J. Robert Oppenheimer Distinguished Fellowship and Excellent Doctoral Dissertation Awards of Chinese Academy of Sciences, *etc.* He has co-authored over 180 papers in peer-reviewed journals with >13000 citations (H-index: 62). His research interests are in engineering nanocrystals and 2D materials for electrocatalysis, batteries and biosensors.
