

Dr. Yujin Tong

Senior Lecturer, Faculty of Physics, University of Duisburg-Essen

Principal Investigator, CRC 1242

yujin.tong@uni-due.de | [Academic profile](#)

Research: Spectro-electrochemistry, electrochemical interfaces, surface science, nonlinear optics, and energy storage.

Selected ISE Service and Leadership

- ISE member since 2017.
- **Symposium organization:** Co-organizer of Symposium 21 at the 72nd ISE Annual Meeting (2021; more than 100 participants); preparing a Division 7 symposium for the 79th Annual Meeting (San Diego, 2028).
- **ISE presentations:** Keynote lecture at the 71st Annual Meeting (2020) and presentation at the 77th Annual Meeting (Sydney, 2026).

International Scientific Leadership and Service

- Chair, Chinese-German Chemical Association (2016–2018).
- Organizer or co-organizer of international sessions and workshops at DPG, Pacificchem, the Lorentz Center, and the Sino-German International Mini-Workshop on Energy Material Interfaces.
- Peer reviewer for more than 20 journals; proposal reviewer for ANR, NSF, and NSFC.
- Supervised or co-supervised 9 postdoctoral researchers, 12 PhD researchers, and 7 master's or bachelor's students.

Professional Career and Education

- **2020–present:** Senior Lecturer, University of Duisburg-Essen;
- **2018–2021:** Group Leader, Fritz Haber Institute of the Max Planck Society.
- **2011–2017:** Postdoctoral research at FOM Institute AMOLF and the Fritz Haber Institute with Prof. Mischa Bonn and Prof. Martin Wolf.
- **Education:** PhD in Physical Chemistry, Hokkaido University, with Prof. Shen Ye (2010); MS and BS in Chemical Engineering, Harbin Institute of Technology, with Prof Geping Yin (2005, 2003).
