

Short Biography

Prof. Guobao XU is Co-Chair of 40th ISE Topical Meeting sponsored by Divisions 1 and 6 and Chairperson of the Organizing Committee of 20th International Symposium on Electroanalytical Chemistry (ISEAC) which will be held from 12 to 17 August, 2025 at State Key Laboratory of Electroanalytical Chemistry (SKLEAC), Chinese Academy of Sciences in Changchun, China. He is Deputy Director of SKLEAC, the Editor of *J Electroanal Chem*, Executive Associate Editor of *Anal Sci* and a Guest or Managing Editor of more than 10 special issues. He has become FRSC since 2011, and was Vice-Chair of Division 6 and Visiting Professor of Université de Bordeaux.

He is Chairperson of the Organization Committee of ISE-sponsored 15th-19th ISEAC and 3rd International Meeting on Electrogenenerated Chemiluminescence. He is a symposium (co)organizer, session (co)chair, or scientific committee member of 70th-73rd ISE Annual Meetings, 33rd ISE Topical Meeting, 17th and 20th International Conference on Electroanalysis (ESEAC), 2nd International Meeting on Electrogenenerated Chemiluminescence, 237th, 241st, 244th and 247th ECS Meetings, 18th and 19th International Meeting on Chemical Sensors (IMCS) among others.

He received MSc in electrochemistry from Xiamen University and PhD in electroanalysis from SKLEAC. After postdoctoral studies in University of Hong Kong, Hong Kong Polytechnic University, NTT Microsystem Integration Laboratories, he has been working in SKLEAC since 2004. He is corresponding author of more than 300 articles in SCI journals (e.g. *Acc. Chem. Res.*, *Chem. Soc. Rev.*). He has presented keynote lectures in 68th ISE Annual Meeting and Shikata Discussion.

Personal statement

I am Co-Chair of 40th ISE Topical Meeting in 2025, Vice-Chair of Division 6 of ISE (2015-2022), Editor of *J Electroanal Chem* associated with ISE, Chairperson of the Organization Committee of 15th-20th International Symposium on Electroanalytical Chemistry (ISEAC, 2015-2025) and 3rd International Meeting on Electrogenenerated Chemiluminescence, and Chair of Analytical Electrochemistry Division of Chinese Society of Electrochemistry (2018-2022). I have successfully contributed to ISE as an ISE member, Coorganizer and Session Chair of Symposiums sponsored by Division 1, Guest Editor of *Electrochim Acta* Special Issue for ISE annual meeting, Organizing Committee Member of 33rd ISE Topical Meeting, and so on. For example, our symposium has contributed more articles to *Electrochim Acta* Special Issue for ISE annual meeting than almost all other symposiums. I have also been symposium organizer/coorganizer and scientific committee member of other international conferences (e.g. 20th International Conference on Electroanalysis (ESEAC) and several ECS meetings) and guest editors of more than 10 special issues of journals, such as *Electrochim Acta*, *J Electroanal Chem*, *Curr Opin Electrochem*, *ChemElectroChem*, *Bioelectrochemistry* and *Biosens Bioelectron*. I open-minded, dedicated, and collaborated friendly with many ISE members. These enable me to get along harmoniously with various members and contribute well to the success of both our division and division members. If elected, I will devote myself to promote fruitful collaboration and exchange, attract more people to support Division 1, and enhance the impact of analytical electrochemistry together with you.
